

In addition to regular daily homework, there will be enrichment homework activities. In the past I have assigned projects such as the Family Tree, Dinosaur Diorama, and a Famous American Presentation. Depending on the needs of this class, we may or may not do these or similar projects. I will send instructions well in advance before the projects are due. Students are also encouraged to invent their own projects in order to earn Cub Cards. All projects must be connected to the 2nd grade curriculum.
